

TOTAL TURBINE CARE®

The Peace of Mind of an LTSA – with the additional benefits of reduced costs and higher quality service

CUSTOMER-FOCUSED SERVICE AGREEMENT:

- Dedicated Team for your Outages
- Annual Assessment of the Power Island
- Parts Inventory Assistance - minimizing the inventory on-hand
- Reliability / Availability Improvement Processes
- Upgrade / Engineering Enhancements Available
- Flexibility - Payment Milestones and Contract Length are fully negotiable

DEDICATED OUTAGE TEAM

Successful projects are always the result of a well-executed plan and good communication. A dedicated team familiar with your plant, equipment, and personnel maximizes project effectiveness.

- Outage Predictability
- Optimized Major Inspection duration and cost
- Increased unit reliability
- Improved unit performance
- Reduced downtime and outage costs

REDUCED OPERATIONS AND MAINTENANCE COSTS

The program combines predictive and preventative maintenance philosophies in order to best plan outage intervals, reducing or eliminating unanticipated problems – a big plus in terms of insurance premiums.

- Plan Tailored to You
- Budgetary Requirements
- Operational Requirements (reliability, efficiency)
- Unit Criticality (backup, primary, cost of replacement power)
- Training needs for plant operations / maintenance personnel
